The Essentials of Animal Communication:

Anyone wanting to deepen their bond with animals is welcome to participate in this two day basic animal communication workshop. You will gain a deeper understanding of how your animals think and feel, what animal communication is and how it works. Practice with each other and then with animals. Develop confidence and receive validation as we talk to one another's animals. There will be opportunity for questions and discussion as we practice our skills in a safe, nurturing and relaxed atmosphere. Even if you do not intend to use these skills professionally, this class will open your heart and heighten your awareness.

Workshop Information:

Day 1:

- .How animals communicate
- .Peaceful meditations that focus your mind and open your heart
- .How to 'listen' to animals
- .How to send and receive thoughts
- .Exercises to enhance your skills
- .Practice with an animal present at the workshop

Day 2

- .Review
- .Overcoming blocks and solving problems
- .Trusting what you receive from animals
- .Learning 'long distance' communication using photos
- .Practice from photos of each other's animals

Registration \$250

- .Using a pendulum to find areas of pain and to measure the intensity of pain.*
- .Using a pendulum to locate energy imbalances in the body*

\$250

Advanced Animal Communication

Prerequisite: The Essentials of Animal Communication

In this two day workshop we will look into animal behavior problems, death & dying, and locating lost animals.

We will learn how to scan the body for pain and injuries.

We will problem solve as we determine whether the behavior problem is emotional, physical, mental or spiritual. Learn how to work with the chakras to gain more information and clarity into the nature of the problem.

Explore death & dying issues and how to support clients who are grieving.

Bring photos of your deceased companions and we will communicate to their spirit form.

Learn how to gather information in order to locate an animal who is lost.

Determine whether the animal is injured, alive or passed on.

\$300

One day workshop : Lost Animal Intensive

An opportunity for those interested in deepening their abilities to locate lost animals.

Prerequisite: Essentials of Animal Communication & Advanced Animal Communication

You will learn different methods to track lost animals:

.Shamanic methods:

 Seeing from the animal's eyes.

 Journeying

.Remote viewing:

 Seeing from an arial view

.Gathering information directly from the animal:

 Learning to ask the right questions

 Learning to relax to receive images

.Dowsing

 Using a pendulum to access the direction and distance the animal has traveled from his/her home

. Learning to dowse a map.
